“ Small enough to care, large enough to make a difference. ”

Introduction and contents

This document is all about the facts surrounding our Trust. In it we will look at our schools- their size, their location and their history within the OAK Multi Academy Trust and at our central office functions and support.

This document is aimed at:

- **Parents** who might want to know a little more about us before deciding to send their child to one of our schools.
- **Teachers and other staff** who might want to know a little more about us before deciding to join us as an employee.
- **Other schools** who might want to know a little more about us before exploring whether they would like to join us in our journey of growth and even greater success.
- **Volunteers and community groups** who might want to know a little more about us before considering whether their unique talents and skills could benefit our young people or colleagues.

A word from our CEO about the history of our Trust

Welcome to the OAK Multi Academy Trust and thank you for taking the time to read a little bit more about how we started the Trust and where we are going with it in the future.

OAK Multi Academy Trust was formed in 2018 through the foresight of five headteachers, their governing bodies and the local community. Their ambition was to collaborate throughout the age range and positively impact on the education of young people and provide opportunities to them in a broader way than could be achieved as five individual schools.

That commitment continues today; together we have grown to understand how to effectively harness the collaborative power across our schools and work beyond OAK through our engagement with external partnerships, such as Challenge Partners. By living our values of Opportunity, Achievement and Kindness, we recognise and value the identities of our schools and the ways in which these unique elements enrich us together, as a whole.

Our values guide us

Opportunity

Ambition

Kindness

Our academies are schools which have a single desire to support young people to enable them to flourish, to succeed and to grow up with a passion for learning and life to be confident about their place in society.

As a result, we see young people who grow by having great academic outcomes while thriving in their localities in readiness for their next step into the world of employment.

By being immersed in a curriculum which is rich in academia and broad in its civic commitment, our young people are as ambitious for their communities as they are for themselves.

A bit about our philosophy and our outcomes

At OAK we believe that everyone and every school has potential to be great. Colleagues, young people and our community offer great insight along with a wealth of experiences and ideas. Where the real magic happens is when we combine great potential with amazing opportunities and heartfelt ambition for everyone who chooses to be part of our family.

P + A + O = AO

Potential + Ambition + Opportunity
Amazing Outcomes

Our Schools

Our schools are the heartbeat of the Trust, currently located in Leicestershire and Leicester City, with an Infant school, a Junior school, two Primary schools, and one secondary school.

We currently operate academies across the age range from Foundation through to Key Stage 4 and have some of the highest performing outcomes in the country. This doesn't happen by chance, and it is to the credit of all the hard work that goes into this, from not just students and their teachers, but also from family commitments as well, and we really value the partnership that we have with our families and wider community.

We're proud of our diverse communities, and the family feel that is synonymous with Oak schools. Children are supported to their fullest potential, and able to follow a 3-16 joined up curriculum throughout their entire school career should they wish.

As a result, at the OAK Multi Academy Trust our pupil and student outcomes or results are very important to us but so also is ability to support our young people into becoming civic minded, resilient and discerning thinkers when viewing the world in which they live.
